

TEMPERATURE CONTROL & THERMAL PROTECTION COMPONENTS

Thermal control components with reliable performance and long service life.

COIN CELL BATTERIES • SECONDARY BATTERIES • PCB ASSEMBLY • ENGINEERING SERVICES
SILICONE, METAL, & INJECTION MOLDED COMPONENTS • CONNECTORS • HARNESSES • & MORE!

THERMOSTATS

Thermostats provide reliable temperature sensing and thermal protection for electronic and mechanical systems.

Kingway supplies thermostat switches and temperature control components designed to protect equipment from overheating and maintain safe operating conditions. Through our global sourcing network and manufacturing partnerships, we help manufacturers integrate dependable thermal control components into a wide range of products.

THERMAL PROTECTION DEVICES

Thermostats are widely used to **monitor temperature and automatically activate or interrupt electrical circuits** when temperature limits are reached.

- Bimetal thermostat switches
- Thermal cutoff switches
- Temperature limit protection devices
- Automatic reset thermostat switches
- Compact thermal protection components

These components help **protect electronic equipment and electrical systems from overheating.**

TEMPERATURE CONTROL SOLUTIONS

Thermostat components are used to **regulate temperature and maintain safe operating conditions** in many types of products.

- Temperature sensing switches
- Thermal safety protection devices
- Over-temperature protection components
- Integrated temperature control solutions
- Reliable thermal switching devices

Thermostats provide **simple and dependable temperature control** for a wide range of applications.

APPLICATIONS:

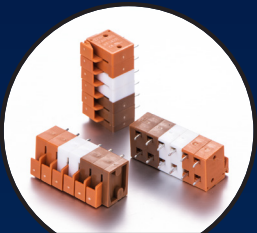

- Consumer Appliances • Industrial Equipment • Power Supplies • Battery Systems
Heating & Cooling Equipment • Automotive Systems • Electronic Devices
